Sealtite AS black:
Robust & Anti-Static.

The conduit Sealtite AS has been developed for all those applications in ATEX areas at risk of explosion, where the use of a conduit, coated with anti-static material is necessary. Using AS conduit, the possibility of electro-static charges accumulating on the surface is excluded. Thus there will be no formation of sparks in the case of discharge by contact.

Material & Construction:
Construction: Galvanised steel core, square-locked with cord packing, thick smooth thermoplastic cover (PVC compound).
From 1.1/2″ a fully inter-locked profile will be used.
Cover specifications: Anti-Static PVC, lead-free according to RoHS, sunlight and UV resistant, suitable for outdoor use and burial installation.

Anti-Static performance: Surface resistance < 10^9 Ohm, meeting the requirements of standard NEN-EN-IEC 60079-0, section 26-13.
**Temperature:** -25 ºC to +70 ºC, intermittent up to +90 ºC.
Colour: Black.

Classification according NEN-EN-IEC 61386:
Compression resistance: Class 4, Heavy (1250 N).
Impact resistance: Class 4, Heavy (6 J).
Tensile strength: Class 4, Heavy (1000 N).
Protection class: IP 67 (dust-proof, water-tight).

RoHS   GOST-R

Square locked
