

Customised solutions

- Safety enclosures
- ATEX enclosures
- Enclosed load break switches
- Enclosed changeover switches
- ATyS 3 enclosed range
- ATyS 6 enclosed range
- Enclosed fuse switches
- Customised solutions

Examples of customised solutions, for more informations, please consult us.

Polyester enclosure

- Polycarbonate transparent cover
- SIDER switch 3 x 50 A with mechanical flag indicator
- Side operation
- Lock and double interlocking device
- ON/OFF pushbutton
- Auxiliary contacts wired to terminals.

IP55 stainless steel enclosure

- SIDER switch 6 pole 50 A with mechanical pilot lamp
- Specific locking SOUTHCO type
- Ventilator and cable gland.

Switching and protection enclosure

- Polyester or steel enclosure
- FUSOMAT or FUSERBLOC visual breaking fuse disconnectors
- From 250 to 630 A
- Double locking.

Explosion proof enclosure

- Hazardous area enclosure EExd IIB or IIC
- Visualised breaking switch SIDER
- Locking mechanism
- From 50 to 400 A
- Mechanical flag indicator.

General switching enclosure

- Steel enclosure
- Entering: SIRCO load break switch 18 pole 125 A
- Outgoing: 6 SIDER switch 3 x 125 A.

Trolley protection enclosure

- Stainless steel enclosure
- SIDER changeover switch 6 + 3 x 1600 A
- Stainless steel handle
- Copper busbar 1600 A.

Low voltage main panel - fuse protection

- Entering: 2 SIDERMAT combination 4 x 1250 A
- Outgoing: FUSOMAT switch
- DIRIS protection
- DIRIS energy management and measurement.
